

# One In Three Chance of Disaster Worse Than Covid-19, Says Deutsche Bank

By T.W. Tramm

ACCORDING to analysts from Deutsche Bank, there is at least a 33% chance that one of four major disasters will occur within the next decade: a pandemic killing millions, a catastrophic volcanic eruption, a major solar flare, or a global war.

According to our understanding of Bible prophecy, there is a 100% chance that all of these things will occur in the next decade.

How do we get there?

Jesus says the generation who sees the “fig tree (Israel) put forth leaves” will witness all of the end-times events mentioned in Scripture (Matt. 24:32-34).

Israel was replanted as a nation in 1948.

The upper limit of a generation in the Bible is 80 years (Ps. 90:10).

$1948 + 80 = 2028$

Subtracting seven years from 2028 to allow for the tribulation period, we understand that the biblical onslaught of devastation is imminent.

During the Tribulation, the world will see one cataclysm after another: punishing weather, firestorms, asteroid impacts, solar flares, volcanic activity, earthquakes, tsunamis, flooding, pandemics, famine, and wars (Rev. 8, 9, 16). Corollary effects will include regional devastation, continent-wide power outages, massive population displacement, and lawlessness.

Simultaneously, Satan and his minions will be in the driver’s seat. As a result, devil worship will no longer be an avocation of a misguided few, it will be compulsory. Those who have rejected the true God will be forced to worship an imposter god, or be killed (Rev. 13:14-16; 20:4).

The good news is that there is a way to avoid the torment of the Tribulation. Call on Jesus and ask Him into your heart. Those who abide in the Lord become part of the Bride of Christ and are counted worthy to escape all the things about to come upon the earth (1 Thess. 5:9-11; Luke 21: 36).

Time is short.

Do it today.
